### Job Duties and Strategic Company Role

OuterNet is seeking software developers with enhancement and maintenance experience in web services, ruby, rails, java, postgres and C++ on Linux and Windows platforms to further its software and service product offerings. Candidates will be using pre-existing code bases to fix bugs, create enhancements and provide developer-level technical support to clients.

### Candidate Requirements

- A citizen of the United States of America.
- Government or military clearances are a plus. It is a requirement that the successful candidate be able to apply for and be granted security clearances.
- An enthusiasm for problem solving and a demonstrated ability to work well with in a team to develop custom networking and security software.
- Highly motivated to solve complex problems with limited information and deadline pressures.
- A proven track record in developing production software with group management tools (cvs, subversion, shared knowledge and bug-tracking environments).
- Full software lifecycle experience from architectural design, implementation, deployment and ending with troubleshooting and maintenance.
- Strong presentation and written communication skills.
- A bachelor's degree in an engineering discipline or equivalent experience.

### Candidate Preferences

- 5+ years in-depth systems experience with UNIX systems architecture (Gentoo Linux distributions a plus)
- 4+ years experience with TCP/IP networking (developmental skills with pcap a plus).
- 4+ years experience with shell scripting languages such as PERL, expect, and csh/bash.
- 3+ years software development experience with object oriented languages (java, C++).
- 2+ years software development experience with SQL (pgsql using postgresql a plus).
- 2+ years software development experience with web application services (tomcat a plus).
- Moderate customer facing skills and customer support abilities are a plus.
- 3 References must be provided and they will be contacted for an in-depth work history.

### For Consideration

Contact Mr. Steve Fish <careers@outer.net> to schedule a 15-30 minute phone interview with a member of OuterNet's technical leadership.

OuterNet is always looking for exceptional people to join our organization. Career opportunities exist in technology, finance, sales, and marketing.
